Presented by the International Consortium for Freezing of Gait and Emory University

ABOUT

The International Consortium for Freezing of Gait (ICFOG) was developed in 2023 with first elections of officers in 2024. ICFOG is an organization of researchers, clinicians and engineers interested in the study of FOG. More information about ICFOG is available at icfog.org.

The ICFOG2025 meeting in Atlanta, GA is the first international research meeting under the ICFOG umbrella. It will cover updated presentations on clinical features, pathophysiology, technology and more. This conference welcomes interested clinicians, scientists, engineers as well as industry collaborators.
